

SPANISH DICTIONARY

GARCÍA ALBERTO

INTRODUCTION

amp.wordmeaning.org is an open and collaborative dictionary project that, apart from being able to consult meanings of words, also offers its users the possibility of including new words or nuancing the meaning of existing words in it. As is understandable, this project would be impossible to carry out without the esteemed collaboration of the people who follow us around the world. This e-Book, therefore, was born with the intention of paying a small tribute to all our collaborators.

GARCÍA ALBERTO has contributed to the dictionary with 14472 meanings that we have approved and collected in this small book. We hope that the reader is very valuable and if you find it useful or want to be part of the project, do not hesitate to visit our website, we will be delighted to receive you.

Working Group

amp.wordmeaning.org

chryseis

Chryseis- is the asteroid discovered by astronomer C. H . F . Peters, September 11, 1879-

chubutenses

in the Republic of Argentina, it is said of the province dechubut naturalesde

chulos

pimps-belonging to a kind of scavenger vulture, daytime, with dark brown plumage, wings and greyish white tail-

chuna

. belonging to the name of the frutodel Cactus-

chunas

. belonging to the name of the frutodel Cactus-

chupalotes

suckers-belonging to a fruit tree of the sapindaceae family, typical of the warm climates of America, with edible fruits, in the form of drus-

chupones

suckers-belonging to a fruit tree of the sapindaceae family, typical of the warm climates of America, with edible fruits, in the form of drupe-

chusques

they are varieties or species delbambu, of great height-grass, Colombia

chuto

I chuto - refers, in Peru, to lapersona which has straight hair and trinchudo-

chuva

chuva-is a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm tall, very toxic, considered a weed, native to South America; it has opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical zones of the world-It is used medicinally as antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

chuva caángay

chuva caángay-is a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm high, very toxic, considered a weed, native to South America; it has opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

chuva o caángay

chuva or caángay-it is a species of herbaceous plant, annual, of the Asteraceae family, about 70 cm high, very toxic, considered a weed, native to South America; it has opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

chuva o caángay-

chuva-caángay-is a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm high, very toxic, considered a weed, native to South America; it has opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

chuva, caángay

chuva, caángay-it is a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm high, very toxic, considered a weed, native to South America; it has opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

chuychú

representation of the Rainbow.

ciajares

King of the Medes who put an end to the Empire of Assyria, destroyed Nineveh. He was also the founder of the Persian Empire. -

cianidrosis

It is said of the blue color of the skin

cianóticos

relating or belonging to lacianosis

cianuria

It refers to the issuing of blue urine. -

ciar

also, means paddling back. -

ciatóforo

It is said that has cavities in the shape of a Cup. -

ciáticos

relating or belonging to lacadera and the ischium. -

cibeles

Cibeles-asteroid discovered by E. W. L. Tempel 8 march 1861-

cibelinas

-belonging to a species or variety northern regions from very dear skin demarta-

ciberfobia

cyberphobia – refers to the aversion, hatred or fear that some people present to work with computers-

ciberfobias

cyberphobias-belonging to the aversion, hatred or fear that people present towards working with computers-

cibofobia

cibophobia-refers to the hatred or fear that certain people present to food; aversion to eating-

cibofobias

cibophobias-belonging to the aversion, hatred or fear that certain people present, to food; aversion to eating-

ciclofobia

cyclophobia- refers to the aversion, hatred or fear that people usually present towards bicycles-

ciclofobias

cyclophobias-belonging to the aversion, hatred or fear that people possess towards bicycles-

ciclofobias

cyclophobias-belonging to the aversion, hatred or fear that people possess towards bicycles-

ciclonales

relating or pertaining to cyclones,-

ciclosporina

cyclosporine- a study conducted by the Chironsalud Madrid University Hospital, has revealed that Covid patients -19, who were treated with the drug cyclosporine, had an 81% less chance of dying than those patients who did not receive such a remedy, since this drug produces, on the one hand, an anti-replicative action of the virus and, on the other hand, modifies the immune response-

ciclópeo

cyclopeo-refers to the expression : wall built with large stones and irregular shape, usually placed without mortar, which was part of the fortifications-

ciclópeos

cyclopeans-belonging to the expression : wall built with large stones and irregular shape, usually placed without mortar, which was part of the fortifications

cicutal

Hemlock-it refers to the expression: thicket with hemlock that appears in certain fields and that must be avoided so that they are not consumed by the horses in their passage-

cicutales

cicutales-refers to the expression: thicket with hemlock that appears in certain fields and that must be avoided so that they are not consumed by horses in their wake-

cicutinas

. belonging to the alkaloid or drug obtained from the cicuta-family of the umbelliferae -

cidianos

relating or pertaining to Cid. -

cidras

. belonging to the name of the Citron fruit-

ciliares

relating or belonging to eyelashes

cilindro

cylinder-refers to the expression : seal of stone, glass or other materials, engraved with motifs and a short text, to be stamped on the clay and identify its owner in personal or state operations-

cilindros

cylinders-belonging to the expression : stone seal, glass or other materials, engraved with motifs and a short text, to be stamped on the clay and identify its owner in personal or state operations-

cimarrón

name given to a variety or species (-) wild celery of the Argentina.

cimofobia

cimophobia-refers to the aversion, hatred or fear that people present to the waves or waves-

cimofobias

cimofobias-belonging to the aversion, hatred or fear that people present to the waves or waves of the sea-

cinamilcocaínas

. belonging to the alkaloid or drug obtenidade coca - the family of the eritroxilaceas - of the leaves -

cinamomo

cinamomo-belonging to a resistant ornamental tree, of the family of meliaceae, with toothed leaves, flowers grouped in clusters, fruits in drupe with narcotic properties;they are native to Southeast Asia and of hard wood and aromatic

cincel

Chisel-this is the constellation located in the cosmic area Southern Hemisphere or Austral-

cinconina

cinconin-refers to a type of alkaloid extracted from the bark of cinnamon, used in medicine to fight malaria-

cinconinas

. belonging to the alkaloid or drug obtenidaa starting from the bark of Cinchona -

cinemáticos

relating or pertaining almovimiento

cinéfilos

It is said of cinema lovers-

cinofobia

cynophobia-refers to people's aversion, hatred or fear of cinanthropy (believing themselves a dog); aversion to dogs-

cinofobias

cynofobias-belonging to aversion, hatred, fear of cinanthropy (believing oneself a dog); aversion to dogs-

cinorrodone

. belonging to the name of the wild rose frutodel-

cinorrodón

. belonging to the name of the wild rose frutodel-

cipote

cipote = stone Cairn.

ciprianofobia

cyprianophobia- refers to the aversion, hatred or fear that people present to venereal diseases and prostitutes, who supposedly infect them-

ciprianofobias

Cyprianophobias - belonging to the aversion, hatred or fear that human beings present to venereal diseases and prostitutes, who supposedly infect them-

cipridofobia

cypridophobia-refers to aversion, hatred, fear of venereal diseases and prostitutes, who supposedly infect them-

cipridofobias

cypridophobias-belonging to aversion, hatred, or fear of venereal diseases and prostitutes, who supposedly infect them-

ciprifobia

cipriphobia-refers to people's aversion, hatred or fear of venereal diseases and prostitutes, who supposedly infect them

ciprifobias

cipriphobias-belonging to aversion, hatred, or fear of venereal diseases and prostitutes, who supposedly infect them-

ciprinofobia

cyprinophobia- refers to the aversion, hatred or fear that people present to venereal diseases and prostitutes, who supposedly spread this condition-

ciprinofobias

cyprinophobias-belonging to the aversion, hatred or fear that people present to venereal diseases and prostitutes, who are supposedly the ones who spread this ailment-

circe

Circe-asteroid discovered byJ. Chacornacel6 of April 1855-

circences

relating or belonging alcirco.

cirios

It is said of a wick candles, long and thick. -

cirrípedos

Cirripedosse is of a // marine, fixed, or parasitic crustaceans unasubclase. (The anafifa belongs to this subclass.)

ciruela

. belonging to the name of the frutodel plum-

ciruelas

. belonging to the name of the frutodel plum-

ciruelillo

ciruelillo-refers to a species of plum, wild shrub, small, thorny, bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, of pleasant flavor. Generally, it has its habitat in forested regions.

ciruelillo ababuy

Ababuy-plum tree refers to a species of plum, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant taste. Generally, it has its habitat in forested regions-

ciruelillo o ababuy

Ciruello- or ababuy- refers to a species of plum, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, fruits of yellow or orange-red color, of pleasant flavor. Generally, it has its habitat in forested regions-

ciruelillo, ababuy

Ciruello, ababuy-refers to a species of plum, wild shrub, small, thorny, bright green oval leaves with a strong aroma of almonds, pale flowers, fruits of yellow or orange-red color, pleasant flavor. Generally, it has its habitat in forested regions-

ciruelillo-ababuy

Ciruelillo-ababuy-refers to a species of plum, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, fruits of yellow or orange-red color, of pleasant flavor. Generally, it has its habitat in forested regions-

ciruelo ababuy

Ababuy-plum refers to a species of plum, wild shrub, small, thorny, bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant taste. Generally, it has its habitat in forested regions-

ciruelo cimarrón

Cimarron-plum refers to a species of plum, wild shrub, small, thorny, bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant taste. Generally, it has its habitat in forested regions.

ciruelo cimarrón ababuy

Ababuy-bighorn plum refers to a species of plum, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant taste. Generally, it has its habitat in forested regions-

ciruelo cimarrón o ababuy

Bighorn or ababuy-plum refers to a species of plum, wild shrub, small, thorny, with bright green oval leaves with a strong

aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant taste. Generally, it has its habitat in forested regions-

ciruelo cimarrón, ababuy

Bighorn plum, ababuy-refers to a species of plum, wild shrub, small, thorny, with bright green oval leaves with a strong almond aroma, pale flowers, yellow or orange-red fruits, pleasant taste. Generally, it has its habitat in forested regions-

ciruelo cimarrón-ababuy

Bighorn-ababuy-plum refers to a species of plum, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant taste. Generally, it has its habitat in forested regions-

ciruelo de mar

Sea plum-refers to a species of plum, wild shrub, small, thorny, bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant taste. Generally, it has its habitat in forested regions.

ciruelo de mar ababuy

Ababuy-sea plum refers to a species of plum, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant taste. Generally, it has its habitat in forested regions-

ciruelo de mar o ababuy

Sea plum or ababuy-refers to a species of plum, wild shrub, small, thorny, bright green oval leaves with a strong aroma of almonds, pale flowers, fruits of yellow or orange-red color, pleasant taste. Generally, it has its habitat in forested regions-

ciruelo de mar, ababuy

Sea plum (ababuy-refers to a species of plum, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant taste. Generally, it has its habitat in forested regions-

ciruelo de mar-ababuy

Sea plum-ababuy-refers to a species of plum, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, fruits of yellow or orange-red color, pleasant flavor. Generally, it has its habitat in forested regions-

ciruelo o ababuy

Plum or ababuy-refers to a species of plum, wild shrub, small, thorny, bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant taste. Generally, it has its habitat in forested regions-

ciruelo silvestre

Wild plum-refers to a wild shrub, small, thorny, bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant taste. Generally, it has its habitat in forested regions.

ciruelo, ababuy

plum, ababuy-refers to a species of plum, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant taste. Generally, it has its habitat in forested regions-

ciruelo-ababuy

Plum-ababuy-refers to a species of plum, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant taste. Generally, it has its habitat in forested regions-

ciruelos

. vegetables, which in their structures or forms are alike, similar, ayun similiaresal -

cirujano

surgeon-refers to the expression : actinoperigio marine fish, small mouth but with many teeth, large snout, intense blue color, with habitat near the reefs-

cirujano azul

blue surgeon-refers to the expression : actinoperigio marine fish, small mouth but with many teeth, large snout, intense blue color, with habitat near the reefs-

cisípedos

It is said of those who have the foot divided into finger -

cismáticos

relating or pertaining alcisma

cisorio

It refers to the art of carving or arte cisoria.-

citadinos

relating or belonging to city or its inhabitants.

citrina

citrine- refers to lemon essential oil, powerful antibacterial, nourishes the skin and relieves coughing

citrinas

citrines-lemon essential oil, powerful antibacterial, which also nourishes the skin and soothes the cough-

citrino

citrine- lemon yellow quartz, due to the presence of iron oxide that supplies it with this shade-

citro

. belonging to the name of the frutodel lemon-

citrofobias

clitrophobias-belonging to the aversion, hatred or fear that the individual presents, to be locked up-

citrones

. belonging to the name of the frutodel lemon-

cítricos

-pertenecientes the name of the frutodel lemon-

citrón

. belonging to the name of the lemon frutodel-

ciudadanos

relating or belonging to the natives or residents of a city-laciudad.//o

civiles

relating or belonging to the queno are neither military or ecclesiastical, // concerning relations and private interests in law -

císticos

relating or belonging to the cystic duct, which gives out the gallbladder products

cítricos

relating or pertaining allimon

cívicos

relating or belonging to laciudadania.

clamar al cielo

It says strong protest by an injustice.

claudias

belonging to a variety or species round deciruela of pale green, juicy and sweet-

clinofobias-belonging to the aversion, hatred or fear that a person presents to go to bed, to sleep, to fall asleep-

clio

Clio-this is an asteroid discovered by astronomerK. T. R. Luther on August 25, 1865-

clio o klio

Clio or Klio-refers to an asteroid discovered by astronomer K. T. R. Lutherel August 28, 1865-

clio-klio

Clio - Klio- refers to an asteroid discovered by astronomerK. T. R. Lutherel August 29, 1865-

clitrofobia

clitrophobia-refers to the aversion, hatred or fear that a person presents to be blocked, locked up or with no way out-

clitrofobia cleitrofobia

clitrophobia cleitrophobia-refers to the aversion, hatred or fear of being blocked, locked up or dead-end-

clitrofobia o cleitrofobia

clitrophobia or cleitrophobia- refers to a person's aversion, hatred or fear of being blocked, locked up or dead-end-

clitrofobia-cleitrofobia

clitrophobia-cleitrophobia-refers to the aversion, hatred or fear of being blocked, locked up or without a way out-

cloelia-

Cloelia- this is the asteroid discovered by astronomer J. H . Metcalfel on February 22, 1908-

cnidarios

CNIDARIOSse is of a // unassubtipo of coelenterates with stinging cells called Nematocysts.

cnidofobia

cnidophobia-refers to people's aversion, hatred or fear towards chains and also, to insects with sting-

cnidofobias

cnidophobias-refers to people's aversion, hatred or fear towards chains and also, to insects with sting-

cnidosporidios

CNIDOSPORIDIOSse is of a // unatipo of ancient parasitic protozoa, today classified into various separate taxa.

coactivos

It is said of those who have force push, force -

cobardía

cowardice, referred to what he lacks, / has no / no = mood and value-

cocaína

cocaine-famous illegal drug , addictive stimulant of the central nervous system , of the dopaminergic system; it is extracted from the coca leaf and can be used in surgery as an anesthetic. -

cocaínas

·pertenecientes to the alkaloid or drug obtenidade coca - the family of the eritroxilaceas - of the leaves -

cocapiojera

cocapiojera-it is an annual plant, of the family of the ranunculaceae, of erect and hairy stems of 1m of height, large leaves, intense blue flowers, fruits in black and rough capsules, with seeds inside that, like all the parts of the plant, are extremely toxic-From these seeds was obtained in the past, a product that was used to fight lice-

cocapiojera albarraz

cocapiojera albarraz-it is an annual plant, of the family of the ranunculáceas, of erect and hairy stems of 1m of height, large leaves, flowers intense blue color, fruits in black and rough capsules, with seeds inside that, like all the parts of the plant, are extremely toxic-From these seeds was obtained formerly, a product that was used to combat lice-

cocapiojera o albarraz

cocapiojera or albarraz-it is an annual plant, of the family of the ranunculáceas, of erect and hairy stems of 1m of height, large leaves, flowers intense blue color, fruits in black and rough capsules, with seeds inside that, like all the parts of the plant, are extremely toxic-From these seeds was obtained formerly, a product that was used to combat lice-

cocapiojera, albarraz

cocapiojera, albarraz-it is an annual plant, of the family of the ranunculáceas, of erect and hairy stems of 1m of height, large leaves, flowers intense blue color, fruits in black and rough capsules, with seeds inside that, like all the parts of the plant, are extremely toxic-From these seeds was obtained formerly, a product that was used to combat lice-

cocapiojera-albarraz

cocapiojera-albarraz-it is an annual plant, of the family of the ranunculáceas, of erect and hairy stems of 1m of height, large leaves, flowers intense blue color, fruits in black and rough capsules, with seeds inside that, like all the parts of the plant, are extremely toxic-From these seeds was obtained formerly, a product that was used to combat lice-

cochero

Carro-constellation located in the cosmic zone of the Northern Hemisphere or Boreal-

coco

. belonging to the name of the coconut frutodel-

cocodrilos

COCODRILOSse is of a // unaorden of reptiles of aquatic life, with bony palate, teeth implanted in alveoli and abdominal sternum.

cocoleras

coconut-belonging to the expression : bird species similar to the pigeon, but smaller, like a tortola, typical of some areas of Mexico-
