

SPANISH DICTIONARY

GARCÍA ALBERTO

## INTRODUCTION

amp.wordmeaning.org is an open and collaborative dictionary project that, apart from being able to consult meanings of words, also offers its users the possibility of including new words or nuancing the meaning of existing words in it. As is understandable, this project would be impossible to carry out without the esteemed collaboration of the people who follow us around the world. This e-Book, therefore, was born with the intention of paying a small tribute to all our collaborators.

GARCÍA ALBERTO has contributed to the dictionary with 14462 meanings that we have approved and collected in this small book. We hope that the reader is very valuable and if you find it useful or want to be part of the project, do not hesitate to visit our website, we will be delighted to receive you.

Working Group

[amp.wordmeaning.org](http://amp.wordmeaning.org)

dimera-name flowers that receive the flowers whose number of floral pieces in each whorl, is two or multiple of two-

### **flores pentámeras**

pentamer-name flowers that receive flowers whose number of floral pieces in each whorl, is five or multiple of five-

### **flores tetrámeras**

tethora-name flowers that receive flowers whose number of floral pieces in each whorl, is four or multiple of four-

### **flores trímeras**

trimera-name flowers that receive the flowers whose number of floral pieces in each whorl, is three or multiple of three-

### **flurona**

flurona-refers to a certain type of simultaneous or mixed infection of the influenza virus and the coronavirus virus, from which its name comes = "flu" (flu) and "rona" (coronavirus) -

### **fluviales**

relating or belonging to losrios

### **foliáceos**

relating or belonging to branches of the plants

### **foliolar**

relative or belonging alfoliolo

### **foliolares**

relating or pertaining alfoliolo

### **fomalhaut**

Fomalhaut refers to a star whose official name was approved on December 15, 2015, located in the constellation Pisces.

### **fonéticos**

relating or belonging alsonido of language

### **fontus**

is guardian tratabadel of sources -

### **forales**

relating or pertaining alfuero

### **forelles**

belonging to a variety or species depera, which appeared in Saxony, Germany and is of unknown origin-

### **forestales**

relating or pertaining to forests and its use. -

### **formosa-**

Formosa- refers to a star whose official name was approved on December 17, 2019, located in the constellation Leo-

### **formoseños**

the Argentina Republic, says of the naturalesde deformosa province

### **forsytia**

Forsytia- is an asteroid discovered by astronomer K. W . Reinmuth on November 20, 1925-

**fortachones**

to have great strength and strength -

**fortuna**

random diosadel and good luck, also related to fertility. It had great acceptance among all the people who worshipped it with altars in their own homes.

**fónicos**

relating or belonging alsonido or voice of the language

**fótico**

relating or belonging to the light

**fóticos**

relating or belonging to luz

**fracciones no decimales**

decimal fraction = to make a fraction decimal it is necessary that the numerator is 10 or a power of 10, i.e., must be the number below the fraction 10,100,1000,etc. Example =  $66/100 = 0,66$ .

**fracción decimal**

decimal fraction = to make a fraction decimal it is necessary that the numerator is 10 or a power of 10, i.e., must be the number below the fraction 10,100,1000,etc. Example =  $66/100 = 0,66$ . For cases in which the result of the fraction is a whole number, we are in the presence of a fraction non-DECIMAL, example:  $80/20 = 4$ .

**frailecillo**

puffin-refers to a species of plum, wild shrub, small, thorny, bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, of pleasant flavor. Generally, it has its habitat in forested regions.

**frailecillo ababuy**

Puffin ababuy-refers to a species of plum tree, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions.

**frailecillo o ababuy**

Puffin or ababuy- refers to a kind of plum, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions-

**frailecillo,ababuy**

Puffin, ababuy-refers to a species of plum tree, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions.

**frailecillo-ababuy**

Puffin-ababuy-refers to a kind of plum, wild shrub, small, thorny, bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions-

### **fraileros**

of the friars-

### **frailes**

belonging to a variety or species of plum-

### **francesa**

French -. belonging to a variety or species decebolla-

### **franz**

Franz- refers to a star whose official name was approved on December 17, 2019, located in the constellation Hercules-

### **fraternales**

relating or belonging to brothers

### **fraternos**

relating or belonging to brothers

### **frecuentes**

that tienenlugar often, at short intervals-

### **fredegundis-**

Fredegundis- is the asteroid discovered by astronomer K. W . Lorenz on January 22, 1909-

### **freia**

Goddess delamor - taught witchcraft handles-

### **fresnillos**

belonging to a variety or species white dedictamo-

### **fresno**

elfresno is Californian origin, thick, bright red, firm, juicy and very aromatic meat - the result. belonging to one variety or species defresa, Strawberry -

### **freya**

Goddess delamor - taught witchcraft handles-

### **frieda**

Frieda is an asteroid discovered by astronomer J. Palisa on October 18, 1911-

## **frigg**

Goddess delamor

## **frigga**

Frigga-this is an asteroid discovered by C. H. F. Peters on the 12th of No Viembre of 1862-

## **frontales**

relating or belonging to the front of something-

## **fruncida**

Puckered - refers to lapersona which is apprehensive, disgusted, skeptical, wary-

## **fruta de estrella**

star fruit refers to the expression: tropical evergreen tree, present in tropical areas, which presents yellow edible berries and compound leaves-

## **frutilla**

. the cutter belonging to the name of the frutode-

## **frutillas**

belonging to a variety or species American defreson or Strawberry-

## **frutillas**

·pertenecientes the name of the strawberry frutode-

## **frutícolas**

relating or belonging to lafruticultura

## **fueguinos**

in the Republic of Argentina, it is said of the province Tierra naturalesde of fire

## **fuentes**

sources -. belonging to a variety or species decebolla-

## **fufú**

Fufu - means for Puerto Rico alhechizo, hex, witchcraft -

## **fuji**

belonging to a variety or species demanzana-

## **fulu**

Fulu- refers to a star whose official name was approved on June 30, 2017, located in the constellation Cassiopeia.

**fumalsamakah**

Fumalsamakah- refers to a star whose official name was approved on June 1, 2018, located in the constellation Pisces-

**fumiforme**

It is similar to the smoke. -

**fumistas**

relating or pertaining taken makes or arranges fireplaces

**fumistería**

It is said the workshop, shop or trade cookers or stoves-

**fumífago**

It is said of the one who swallows smoke smoking -

**fumífero**

made or dismisses smoke-

**fumífugo**

that it repels the smoke-

**fumívoro**

It is said of furnaces and fireplaces in which combustion is performed unless it is an annoying smoke outlet.

**fumívoro**

It is said of furnaces and fireplaces in which combustion is performed unless it is an annoying smoke outlet.

**fundamentación**

Foundation = is the establishment of platforms or foundations to stir a specific problem: a good foundation is going to say which is the origin of the same and where to aim.

**funerales**

relating or belonging alentierro, funeral of a deceased

**funerarios**

relating or belonging alentierro, funeral of a deceased

**funi**

Funi- refers to a star whose official name was approved on December 17, 2019, located in the constellation Draco-

**furud**

Furud- refers to a star whose official name was approved on July 20, 2016, located in the constellation Canis Maior-

**fuyue**

Fuyue- refers to a star whose official name was approved on June 30, 2017, located in the constellation Scorpius-

**fúnebres**

relating or belonging to losdifuntos

**fúngicos**

relating or belonging to loshongos

**gabarda**

belonging to one variety or species derosal and its fruit, rose hips -

**gabardas**

belonging to a variety or species deescaramujo, species of rose and its fruit-

**gacrux**

Gacrux- refers to a star whose official name was approved on July 20, 2016, located in the constellation Crux-

**gades,antonio**

It's the art of Antonio Esteve Ródenas, 1936-2004, prestigious name dancer and choreographer-

**gafes**

It is said of those who traenmala luck -

**gakyid**

Gakyid- refers to a star whose official name was approved on December 17, 2019, located in the constellation Cancer-

**gala**

belonging to a variety or species demanzana-

**galalitas**

. belonging to synthetic resin obtained from the casein of milk with formaldehyde-

**galatea**

Galatea-refers to an asteroid discovered by E. W. L. Tempel on August 29, 1862-

**galaxia de girasol**

Sunflower Galaxy-refers to a galaxy located in the constellation OfBastones Venatici-

**galaxia de hidromasaje**

Hydromassage galaxy-refers to a galaxy located in the constellation Of Venatici-

**galaxia del molinillo**

Grinder Galaxy-refers to a galaxy located in the constellation of the Major Bear-

**galaxia del molinillo del sur**

Southern Grinder Galaxy-refers to a galaxy located in the constellation

**galaxia renacuajo**

Tadpole Galaxy-refers to a galaxy located in the constellation Draco-

**galaxia triangular**

Triangular Galaxy-refers to a galaxy located in the constellation Triangle-

**galaxias de ratones**

Mouse Galaxies-refers to a galaxy located in the constellation Coma Berenices-

**galaxy aguja**

Galaxy needle-refers to a galaxy located in the constellation Coma Berenices-

**galácticos**

relating or belonging to Galaxy to the milky way

**galdones**

galdons-belonging to the expression : carnivorous bird, denton, with cinderella redage, robust and hooked bill, black wings and tail, stained with white-

**galdón**

gallon-refers to the expression : carnivorous bird, denton, with ceniciento plumage, robust and hooked bill, black wings and tail, stained white-

**galene**

Galene- this is the asteroid discovered by astronomer A. H . Charloisel on August 27, 1897-

**galeras**

galleys-belonging to a certain ship's yippus whose origin dates back to Roman times, oars, with lateen sails.

**galeras bastardas**

bastard galleys- belonging to the nickname given in the sixteenth century to a galley with a stronger structure than the ordinary one, with oars and sails, fast, used as an auxiliary or exploratory ship.

**galeras galochas**

Galleys belonging to the galley of large oars, each manned by several men.

## **galeras reales**

Royal galleys—belonging to that galley which carried the royal standard when a member of the king's family was on board.

## **galilea-**

Galilee- is the asteroid discovered by astronomer J. Helffrich on February 14, 1910-

## **gallia**

Gallia- is the asteroid discovered by astronomer M. P. Henry on August 7, 1875-

## **galliformes**

GALLIFORMESse is of a // unaorden of birds omnivores-legs sturdy, short wings and heavy flight = grouse-Partridge-quail-pheasant-Turkey.

## **gallinazos**

hens-belonging to a species of scavenger vulture, daytime, with dark brown plumage, wings and greyish white tail-

## **gallipavo**

gallipavo-refers to a species of scavenger vulture, daytime, with dark brown plumage, wings and greyish white tail-

## **gallipavos**

gallipavos-belonging to a species of scavenger vulture, daytime, with dark brown plumage, wings and greyish white tail-

## **gallocresta**

gallocrest-refers to the expression : medicinal plant, erect, robust, very smelly, with obtuse leaves, scalloped and basal rosette shape; it is used in medicine as a healer

## **gallones**

gallons- belonging to the hollow silver bead that is part of a certain type of necklaces-

## **gallones agallones**

gallants- belonging to the hollow silver bead that is part of a certain type of necklaces-

## **gallones o agallones**

galls or gills-belonging to the hollow silver bead that is part of a certain type of necklaces-

## **gallones-agallones**

gallons-gallons-belonging to the hollow silver bead that is part of a certain type of necklaces-

## **gallón**

gallon-refers to a type of silver bead, hollow, which is part of a certain model of necklaces-

## **gallón agallón**

gallant- refers to a hollow silver bead that is part of a certain type of necklaces-

### **gallón o agallón**

gallon or gallon-refers to the hollow silver bead that is part of a certain type of necklaces-

### **gallón-agallón**

gall - gall-it is a hollow silver bead that is part of a certain type of necklaces-

### **gamboas**

belonging to a variety or species demembrillo-

### **gammon**

gammon-name which received, in certain areas of Africa, a feast in honor of the birth of the Prophet Muhammad-

### **gammones**

gammones-belonging to the name it received, in certain areas of Africa, a feast in honor of the birth of the Prophet Muhammad-

### **ganaderías**

refers to losdistintos vaccines cattle farm, groups of all ages and sexes, whose breeding and conservation is common.

### **ganados**

refers to losdistintos groups of animals of the same species that will feed and live together, applicable also to tame beasts and wild beasts. -

### **ganoideos**

GANOIDEOSse is of a / / unasubclase of fish from freshwater, cartilaginous skeleton and tail of unequal lobes, as sturgeon.

### **ganymed**

Ganymed- This is an asteroid discovered by the astronomer. H . W . Baade on October 23, 1924-

### **garay-**

Garay-Philippine vessel, a kind of sloop or flat, flat in shape and shallow, with a slightly narrower bow than the rest of the ship.

### **garays**

Garays-belonging to a Philippine vessel, a kind of sloop or flat, flat in shape and shallow, with the bow somewhat narrower than the rest of the ship.

### **garrafales**

belonging to one variety or species deguinda and cherries, very large and tasty -

**garumna**

Garumna- is the asteroid discovered by astronomer H. J . To. Perrotin on January 29, 1878-

**gaulós**

Gauls-Ancient commercial ship with ample load capacity, 1 rectangular sail, rounded stern, used by the Phoenicians-

**gaussia**

Gaussia- is an asteroid discovered by astronomer S. I . Beliavskiel on August 8, 1923-

**gaviola**

gaviola-it is a small tree of the anonaceae family, with few flowers, of edible fruit, grown in tropical areas-

**gálbulas**

. belonging to the name of the Cypress-globose, dry frutodel-

**gánguil-**

Ganguil – This is a certain type of barge, towed or autonomous, used for the transport and dumping of debris from dredging or for

**gánguiles**

Gangs-belonging to a barge, towed or autonomous, used for the transport and dumping of debris from dredging or for landfilling. -

**gástricos**

relating or pertaining to the stomach

**gedania-**

Gedania- is the asteroid discovered by astronomer F. H . Kaiser on September 26, 1913-

**gefión**

Goddess of the future - Patron Saint of farmers - saw the future, but they could not change it in the mythology of the Nordics

**geiko**

Geiko-refers to a certain type of Japanese artist. of which in 1920 there were 80 . 000; today there are only about a thousand, but their fascination remains-In the West they are called geisha, but in Japan they are geikos and at first they were male. Before, their apprenticeship began at age six and today begins at 15-Extremely discreet, dressing a geisha can cost the same or more than buying a house-

**geikos geishas**

Geikos Geishas-In the year 1920 there were 80. 000; today there are only about a thousand, but their fascination remains-In the West they are called geisha, but in Japan they are geikos and at first they were boys-Before, their learning began at age six and today begins at 15-Extremely discreet, dressing a geisha can cost the same or more than buying a house-

### **geikos o geishas**

Geikos or Geishas-In 1920 there were 80. 000; today there are only about a thousand, but their fascination remains-In the West they are called geisha, but in Japan they are geikos and at first they were boys-Before, their learning began at age six and today begins at age 15-Extremely discreet, dressing a geisha can cost the same or more than buying a house-

### **geikos, geishas**

Geikos, Geishas-In the year 1920 there were 80. 000; today there are only about a thousand, but their fascination remains-In the West they are called geisha, but in Japan they are geiko and at first they were boys-Before, their learning began at age six and today begins at 15-Extremely discreet, dressing a geisha can cost the same or more than buying a house-

### **geikos-geishas**

Geikos-Geishas-In 1920 there were 80. 000; today there are only about a thousand, but their fascination remains-In the West they are called geisha, but in Japan they are geikos and at first they were boys-Before, their learning began at age six and today begins at age 15-Extremely discreet, dressing a geisha can cost the same or more than buying a house-

### **geisha-**

Geisha- is an asteroid discovered by astronomer K. W . Reinmuth on November 17, 1924-

### **geishas**

Geisha - belonging to a certain type of Japanese artist, of which in the year 1920 there were 80. 000; today they are only about a thousand, but their fascination remains-In the West they are called geisha, but in Japan they are the geiko and at first they were boys-Before, their learning began at age six and today begins at age 15. Extremely discreet, dressing a geisha can cost the same or more than buying a house.

### **geishas geikos**

Geisha Geikos-In the year 1920 there were 80 . 000; today there are only about a thousand, but their fascination remains-In the West they are called geisha, but in Japan they are geikos and at first they were boys-Before, their learning began at age six and today begins at 15-Extremely discreet, dressing a geisha can cost the same or more than buying a house-

### **geishas o geikos**

Geisha or Geikos-In 1920 there were 80. 000; today there are only about a thousand, but their fascination remains-In the West they are called geisha, but in Japan they are geikos and at first, they were boys-Before, their learning began at age six and today begins at 15-Extremely discreet, dressing a geisha can cost the same or more than buying a house-

### **geishas, geikos**

Geisha, Geikos-In the year 1920 there were 80. 000; today there are only about a thousand, but their fascination remains-In the West they are called geisha, but in Japan they are geikos and at first they were boys-Before, their learning began at age six and today begins at 15-Extremely discreet, dressing a geisha can cost the same or more than buying a house-

### **geishas-geikos**

Geishas-Geikos-In 1920 there were 80. 000; today there are only about a thousand, but their fascination remains-In the West they are called geisha, but in Japan they are geikos and at first they were boys-Before, their learning began at age six and today begins at 15-Extremely discreet, dressing a geisha can cost the same or more than buying a house-

## **gellivara**

Gellivara- is an asteroid discovered by astronomer J. Palisa on September 14, 1923-

## **gemelares**

relating or belonging to loshijos or twin brothers

## **gemelos**

Twins-it is said of a constellation located in cosmic zoneZodiacal-

## **generaciones**

refers to lascastas, genera, species of quadrupeds.

## **generativos**

It is said of those who have the virtue of breed -

## **genésicos**

relating or belonging to generation

## **genoveva-**

Genoveva- is the asteroid discovered by astronomerA . Kopff on April 22, 1909-

## **genua-**

Genua- this is the asteroid discovered by the astronomer L. Carnera on May 7, 1902-

## **geocospías**

geoscopies-belonging to the discipline or science that was responsible for the study of the conditions and nature of the soil or land, through omens or omens-

## **geometría**

Geometria-is the asteroid discovered by astronomer A. h. Charlois on September 18, 1893-

## **geoscopía**

geoscopy- discipline or science that was responsible for the study of the conditions and nature of soil or land, through omens or omens-

## **geotérmicos**

relating or belonging alcalor of the Earth

## **geóscopo**

geoscope-person who was in charge of the study of the conditions and nature of the soil or land, through omens or omens-

**geóscopos**

geoscopes-people who were concerned with the study of the conditions and nature of the soil or the earth, through omens or omens-

**geóticas**

He says those things that once made with Earth, formerly.

**geóticos**

relating or belonging to Earth, formerly - used

**gerda**

Gerda- is the asteroid discovered by astronomerC. H . F . Petersel on July 31, 1872-

**gerenuces**

-belonging to a species or variety of long-necked African degacela-

**gerlianos**

. says, argentina-provincia Buenos Aires, for children born in town of Republic: Gerli -

**gerlinde-**

Gerlinde- is the asteroid discovered by astronomerA. Kopffel on June 24, 1908-

**gersuind-**

Gersuind- is the asteroid discovered by astronomerA. Kopffel on August 15, 1909-

**gertrud**

Gertrud-this is the asteroid discovered by astronomer J. Palisa on February 28, 1911-

**gerundivo**

gerundive = is the Latin participle in 40 tries, - ndus ) such as hortandus, exhaustiendus.-

**geselinos**

. says, argentina-provincia Buenos Aires, for children born in town of Republic: Villa Gesell -

**gesticulares**

relating or pertaining algesto

**génovas**

belonging to a variety or species deciruela-

**ghanja**

Ghanja—refers to a certain type of two- or three-masted Western Arab warship—

**ghanjas**

ghanjas—belonging to a two- or three-masted Western Arab warship—

**giausar**

Giausar- refers to a star whose official name was approved on February 1, 2017, located in constellation Draco-

**gienah**

Gienah- refers to a star whose official name was approved on November 6, 2016, located in the constellation Corvus-

**gigana**

. belonging to one variety or species defresa, frutilla-origen Californian -

**ginan**

Ginan- refers to a star whose official name was approved on November 19, 2017, located in the constellation Crux-

**ginger gold**

belonging to a variety or species demanzana-

**gingivales**

relating or belonging to lasencias

**gismonda-**

Gismonda- this is the asteroid discovered by astronomer M. F . Wolf on September 3, 1902-

**gía**

gía-refers to a species of plum, wild shrub, small, thorny, bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, of pleasant flavor. Generally, it has its habitat in forested regions.

**gía ababuy**

Ababuy-refers to a species of plum tree, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions.

**gía manzanilla**

gía chamomile-refers to a species of plum, wild shrub, small, thorny, bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, of pleasant flavor. Generally, it has its habitat in forested regions.

**gía manzanilla ababuy**

Chamomile ababuy-refers to a kind of plum tree, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions.

**gía manzanilla o ababuy**

Chamomile or ababuy-refers to a species of plum tree, wild shrub, small, thorny, with bright green oval leaves with a

strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions.

### **gía manzanilla,ababuy**

Chamomile refers to a species of plum tree, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions.

### **gía manzanilla-ababuy**

A species of plum tree, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions.

### **gía o ababuy**

A species of plum tree, a wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions.

### **gía,ababuy**

A species of plum tree, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant in taste. Generally, it has its habitat in forested regions.

### **gía-ababuy**
