

SPANISH DICTIONARY

GARCÍA ALBERTO

## INTRODUCTION

amp.wordmeaning.org is an open and collaborative dictionary project that, apart from being able to consult meanings of words, also offers its users the possibility of including new words or nuancing the meaning of existing words in it. As is understandable, this project would be impossible to carry out without the esteemed collaboration of the people who follow us around the world. This e-Book, therefore, was born with the intention of paying a small tribute to all our collaborators.

GARCÍA ALBERTO has contributed to the dictionary with 14462 meanings that we have approved and collected in this small book. We hope that the reader is very valuable and if you find it useful or want to be part of the project, do not hesitate to visit our website, we will be delighted to receive you.

haloques - belonging to a small old vessel, shallow draft, used for transport in coastal waters -

## **halotecnia**

Halotechnics refers to the industrial system or method that is applied to extract salt.

## **halotecnia-**

Halotechnics - refers to the industrial system or method that is used to extract salt.

### **halotecnias**

halotechnics belonging to the industrial system or method that is applied to extract the salt.

### **hamal**

Hamal- refers to a star whose official name was approved on July 20, 2016, located in the constellation Aries-

### **hamburga**

Hamburga- is the asteroid discovered by astronomer M . F . Wolf; F . K . To. Schwassmann on October 31, 1899-

### **hamiltonia-**

It is an asteroid discovered by astronomer J. And. Keeler on December 7, 1899-

### **hamlines**

belonging to a variety or species of orange-

### **hammonia**

Hammonia-is the asteroid discovered by astronomer J. Palisa on October 21, 1911-

### **han abocado**

have anrated-refers to the expression: they have poured the capacity of one vessel into another

### **han dimanado**

have come to terms with the expression: they have emanated some things from another-

### **hanina**

It's a Japanese figure in Terra cotta. -

### **haninas**

It's Japanese female figures made in terracotta.

### **hansa-**

Hansa- this is the asteroid discovered by the astronomer. F . Wolf; L . Carnera on May 21, 1901-

### **hapag**

Hapag is an asteroid discovered by astronomer J. Palisa on October 21, 1911-

### **harmonía**

Harmonia-refers to an asteroid discovered by H. M. S . Goldschmidt on March 31, 1856-

## **harvard**

Harvard- this is the asteroid discovered by astronomer J. H. Metcalf on November 16, 1912-

## **has abocado**

you have anited-refers to the expression: you have poured the capacity of one vessel into another

## **hassaleh**

Hassaleh- refers to a star whose official name was approved on June 30, 2017, located in the constellation Auriga-

## **hathor**

Goddess delamor-joy - was the Aphrodite of the Greeks-

## **hator**

Goddess delamor-joy - was the Aphrodite of the Greeks-

## **hatysa**

Hatysa- refers to a star whose official name was approved on September 5, 2017, located in the constellation Orion-

## **havnia**

Havnia-this is the asteroid discovered by astronomer A. H. Charlois on March 12, 1893-

## **hayucos**

It has -pertenecientes the name of the frutode-

## **hábito del diablo**

Habit of the devil-it is a perennial herbaceous plant, of the family of the ranunculaceae that can settle the meter and a half of height, of webbed leaves and blue flowers, grows in the center of Europe, near streams of water, extremely poisonous and is used in medicine as a sedative-

## **hábito del diablo acónito**

Habit of the devil aconite-it is a perennial herbaceous plant, of the family of the ranunculaceae that can bathe the meter and a half of height, of webbed leaves and blue flowers, grows in the center of Europe, near streams of water, extremely poisonous and is used in medicine as a sedative-

## **hábito del diablo o acónito**

Habit of the devil or aconite-it is a perennial herbaceous plant, of the family of the ranunculaceae that can reach the meter and a half of height, of webbed leaves and blue flowers, grows in the center of Europe, near streams of water, extremely poisonous and is used in medicine as a sedative-

## **hábito del diablo, acónito**

Habit of the devil, aconite-it is a perennial herbaceous plant, of the family of the ranunculaceae that can reach the meter and a half of height, of webbed leaves and blue flowers, grows in the center of Europe, near streams of water, extremely poisonous and is used in medicine as a sedative-

### **hábito del diablo-acónito**

Habit of the devil-aconite-it is a perennial herbaceous plant, of the family of the ranunculaceae that can settle the meter and a half of height, of webbed leaves and blue flowers, grows in the center of Europe, near streams of water, extremely poisonous and is used in medicina as a sedative-

### **hábitos del diablo**

habits of the devil-belonging to a perennial herbaceous plant, of the buttercup family that can reach one and a half meters in height, with palmate leaves and blue flowers, grows in central Europe, near streams of water, extremely poisonous and is used in medicine as a sedative-

### **he abocado**

I have anited-refers to the expression: I have poured the capacity of one vessel into another-

### **he acarreado**

I have hauled-refers to the expression: I have transported something anyway-

### **hebe**

Hebe-refers to the asteroid discovered by K. L. Hencke on July 1, 1847-

### **hebes**

belonging to a variety or species deuva-

### **hechuras**

concerns external alaspecto of Bull and Bullfighter.

### **hecker**

. belonging to one variety or species defresa, frutilla-origen Californian -

### **hedionda**

Dirty, disgusting and obscene person or thing.

### **hediondas**

hedioned-belonging to the dirty, disgusting and obscene person or thing

heidy //heidi-is the name of a literary work written in 1880 by Swiss author Johanna Spyri-

**hekate**

Hekate- this is an asteroid discovered by J. C. Watson on July 11, 1868-

**hela-**

Hela- is the asteroid discovered by astronomer J. Helffrich on June 5, 1910-

**helina**

Helina- this is an asteroid discovered by astronomer G. N. Neúiminon September 29, 1926-

**heliodoras**

belonging to a variety or species detulipan-

**helios-apolo**

God-heroabuelo of = Medea, in Greco-Roman mythology

**helíacos**

relating or belonging to the Ortho or twilight of a star which coincides approximately with the del sol, in astronomy-

**helvetios**

Helvetios- refers to a star whose official name was approved on December 15, 2015, located in the constellation Pegasus-

**helwerthia-**

Helwerthia- is the asteroid discovered by the astronomer M. F. Wolf on March 20, 1915-

**hemales**

relating or belonging to the blood or the vascular device

**hemáticos**

relating or belonging to the blood

**hemipteroideos**

HEMIPTEROIDEOSse is of a // insect unasuperorden = bug-cicada-aphids, with mouth parts suitable for chopping and

suck, often with former between leathery and membranous wings.

### **hemos abocado**

we have anited-refers to the expression: we have poured the capacity of one vessel into another

### **hemosporidios**

HEMOSPORIDIOSse is of a // someClass of protozoa, parasites in the blood of some vertebrates.

### **henequénés**

belonging to a variety or species amarilidacea depita-plant-

### **henri desiré**

Henri Desio-refers to the expression: famous serial killer of French origin, 1869-1922-

### **hera**

Hera- is the asteroid discovered by astronomer J. C . Watson on September 7, 1868-

### **heráldicos**

relating or pertaining alblason

### **herbarios**

relating or belonging to lashierbas or plants

### **herbascos**

. belonging to a variety or species deuva-

### **hercianos**

relating or belonging to electromagnetic lasondas

### **hercynia**

Hercynia- is the asteroid discovered by astronomerM . F . Wolf and F. K . To. Schwassmann on September 21, 1900-

### **heréticos**

relating or belonging to laherejia or to the heretic

### **heriles**

relating or belonging to alamo. -

### **hermia-**

Hermia- is the asteroid discovered by astronomer K. W . Lorenz on August 12, 1909-

**hermione-**

Hermione- is the asteroid discovered by astronomer J. C . Watsonel May 12, 1872-

**hernandinas**

belonging to a variety or species demandarina-

**heroína**

Heroin-is an alkaloid synthesized from morphine, like this, is analgesic, but also has certain stimulating effects. It is very addictive, and more potent than morphine but its effect is less durable.

**heroínas**

. belonging to the alkaloid or drug obtenidade the morphine-powerful analgesic and hypnotic -

**herradero**

refers to the action of marking or point with iron cattle, whether bravo or the manso. // intended place to do this operación.//Estación or season in which it is performed.

**hertha**

Hertha- is the asteroid discovered by astronomerC. H . F . Petersel on February 18, 1874-

**hesperia**

Hesperia-this is an asteroid discovered by G. ?. Schiaparelli on April 29, 1861-

**hestia**

Hestia-asteroid discovered by N. R. Pogson on August 16, 1857-

**heterópteros**

Heteropterosse is of a // unaorden of insects... The Heteroptera are known with the common name of bed bugs-

**heterópteros**

Heteropterosse is of a // unaorden of insects whose upper wings are leathery in its first half and membranous at the second.

**hexacoralarios**

HEXACORALARIOSse is of a // unasubclase of coelenterates with six ( or a multiple of six ) tentacles and other so many partitions.

**heze**

Heze- refers to a star whose official name was approved on June 1, 2018, located in constellationVirgo-

**hécate**

Goddess of lasbrujas - of darkness - the crossroads of roads-

## **hécuba**

Hecuba- is the asteroid discovered by astronomer K. T. R. Lutherel on April 2, 1869-

## **hélice**

Constellation of the Big Dipper.

## **hércules-**

Hercules- it is said of a constellation located in the cosmic zone Northern Hemisphere or Boreal-

## **hibisco**

Hibiscus-refers to a malvaceae, aromatic, ornamental, large-leaved, serrated plant, hairy stem, red flowers. typical of some areas of Egypt and India-

## **hibisco abelmosco**

Abelmosque hibiscus-refers to a malvaceous plant, aromatic, ornamental, large, serrated leaves, hairy stem, red flowers. typical of some areas of Egypt and India-

## **hibisco o abelmosco**

Hibiscus or abelmosk-refers to a malvaceae, aromatic, ornamental, large, serrated leaves, hairy stem, red flowers. typical of some areas of Egypt and India-

## **hibisco,abelmosco**

Hibiscus, abelmosco-refers to a malvaceae plant, aromatic, ornamental, large, serrated leaves, hairy stem, red flowers. typical of some areas of Egypt and India-

## **hibisco-abelmosco**

Hibiscus-abelmosco- refers to a malvaceous plant, aromatic, ornamental, with large and serrated leaves, hairy stem, red flowers. typical of some areas of Egypt and India-

## **hibiscos**

hibiscus-belonging to a malvaceae plant, aromatic, ornamental, with large and serrated leaves, hairy stem, red flowers. typical of some areas of Egypt and India-

## **hibiscos abelmoscos**

Abelmosque hibiscus-belonging to a malvaceae plant, aromatic, ornamental, with large and serrated leaves, hairy stem, red flowers. typical of some areas of Egypt and India-

## **hibiscos o abelmoscos**

hibiscus or abelmosc-belonging to a malvaceous plant, aromatic, ornamental, with large and serrated leaves, hairy stem, red flowers. typical of some areas of Egypt and India-

## **hibiscos,abelmoscos**

hibiscus, abelmosque-belonging to a malvaceous plant, aromatic, ornamental, with large serrated leaves, hairy stem, red flowers. typical of some areas of Egypt and India-

### **hibiscos-abelmoscos**

hibiscus-abelmoscos-belonging to a malvaceae plant, aromatic, ornamental, with large and serrated leaves, hairy stem, red flowers. typical of some areas of Egypt and India-

### **hidrocoralarios**

HIDROCORALARIOSse is of a // unaorden of colonial cnidarians with calcareous skeleton, as the milepora.

### **hidrópicos**

relating or belonging to lahidropesia

### **hidrópicos**

have to be abnormal or excessive -

### **hiemales**

relating or belonging to the winter

### **hieran**

corresponds to the expression " " damage, cause a wound " ". -

### **hieráticos**

relating or belonging to chips sacred or priestly

### **hieráticos**

relating or belonging to lossacerdotes from pagan antiquity

### **hieráticos**

relating or belonging to a certain type of Papyri that were brought from ancient Egypt.

### **hieráticos**

relating or belonging to the sculptures and religious paintings that reproduce traditional forms.

prickly peargrass, caángay-it is a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm tall, very toxic, considered a weed, native to South America; It presents opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

### **hierba de chucho-caángay**

Chucho-Caángay-grass is a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm tall, very toxic, considered a weed, native to South America; It presents opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

### **hierba de pollo caángay**

Caángay chicken grass-it is a species of herbaceous plant, annual, of the Asteraceae family, about 70 cm tall, very toxic, considered a weed, native to South America; It presents opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

### **hierba de pollo o caángay**

chicken grass or caángayis a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm tall, very toxic, considered a weed, native to South America; It presents opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

### **hierba de pollo, caángay**

chicken grass, caángay-it is a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm tall, very toxic, considered a weed, native to South America; It presents opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

### **hierba de pollo-caángay**

chicken grass is a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm tall, very toxic, considered a weed, native to South America; It presents opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

### **hierba del caballo**

Horse grass-refers to the expression : herbaceous plant of the asteraceae family, of fragile stem, lanceolate leaves, yellow flowers in panoja; is used in medicine, for its content of tannins, as astringent and antidiarrheal-

### **hierba hemostática**

hemostatic herb-it is a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm tall, very toxic, considered a weed, native to South America; it has opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical zones of the world-It is used medicinally as antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

### **hierba hemostática caángay**

Caángay hemostatic grass is a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm tall, very toxic, considered a weed, native to South America; It presents opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

### **hierba hemostática o caángay**

hemostatic grass or caángay-it is a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm tall, very

toxic, considered a weed, native to South America; It presents opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

### **hierba hemostática, caángay**

hemostatic grass, caángay- it is a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm tall, very toxic, considered a weed, native to South America; It presents opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

### **hierba hemostática-caángay**

hemostatic-caángay-grass-it is a species of herbaceous plant, annual, of the Asteraceae family, about 70 cm tall, very toxic, considered a weed, native to South America; It presents opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-

### **hierba piojenta**

piojenta grass-it is an annual plant, of the family of the ranunculáceas, of erect and hairy stems of 1m of height, large leaves, intense blue flowers, fruits in black and rough capsules, with seeds inside that, like all the parts of the plant, are extremely toxic-From these seeds it was obtained formerly, a product that was used to combat lice-

### **hierba piojenta albarraz**

Albarraz piojenta grass-it is an annual plant, of the family of the ranunculaceae, of erect and hairy stems of 1m of height, large leaves, intense blue flowers, fruits in black and rough capsules, with seeds inside that, like all the parts of the plant, are extremely toxic-From these seeds it was obtained formerly, a product that was used to combat lice-

### **hierba piojenta o albarraz**

piojenta grass or albarrazse is an annual plant, of the family of the ranunculaceae, of erect and hairy stems of 1m of height, large leaves, intense blue flowers, fruits in black and rough capsules, with seeds inside that, like all the parts of the plant, are extremely toxic-From these seeds it was obtained formerly, a product that was used to combat lice-

### **hierba piojenta, albarraz**

piojenta grass, albarraz-it is an annual plant, of the family of the ranunculaceae, of erect and hairy stems of 1m of height, large leaves, flowers intense blue color, fruits in black and rough capsules, with seeds inside that, like all the parts of the plant, are extremely toxic-From these seeds was obtained formerly, a product that was used to combat lice-

### **hierba piojenta-albarraz**

piojenta-albarrazse grass is an annual plant, of the family of the ranunculaceae, of erect and hairy stems of 1m of height, large leaves, intense blue flowers, fruits in black and rough capsules, with seeds inside that, like all the parts of the plant, are extremely toxic-From these seeds it was obtained formerly, a product that was used to combat lice-

### **hierba piojera**

It refers to the poisonous herbaceous plant, whose powdered seeds are used against lice.

### **hierba piojera albarraz**

pineapple herb albarraz-it is an annual plant, of the buttercup family, of erect and hairy stems of 1m of height, large leaves, intense blue flowers, fruits in black and rough capsules, with seeds inside that, like all the parts of the plant, are extremely toxic-From these seeds was obtained in the past, a product that was used to combat lice-

### **hierba piojera o albarraz**

Piojera herb or albarraz-it is an annual plant, of the buttercup family, of erect and hairy stems of 1m of height, large leaves, intense blue flowers, fruits in black and rough capsules, with seeds inside that, like all the parts of the plant, are extremely toxic-From these seeds was obtained in the past, a product that was used to combat lice-

### **hierba piojera, albarraz**

piojera grass, albarraz- it is an annual plant, of the buttercup family, of erect and hairy stems of 1m of height, large leaves, intense blue flowers, fruits in black and rough capsules, with seeds inside that, like all the parts of the plant, are extremely toxic-From these seeds was obtained in the past, a product that was used to combat lice-

### **hierba piojera-albarraz**

It is an annual plant of the buttercup family, with erect hair stems 1m tall.

### **hierbas piojeras**

Belonging to the poisonous herbaceous plant, whose powdered seeds are used against lice.

### **hierra**

season in which is marked cattle and party held for this reason.

### **higiénicos**

relating or pertaining alaseo-cleaning-hygiene

### **higo**

. belonging to the name of the fig tree frutode-

### **higo chumbo**

. belonging to the name of the frutodel Cactus or prickly - pear

### **higos chumbos**

. belonging to the name of the frutodel Cactus or prickly - pear

### **higrina**

higrina-refers to a type of alkaloid found in coca leaves. It was first isolated in 1889-

### **higrinas**

hygrins-belonging to an alkaloid found in coca leaves. It was first isolated in 1889-

### **hilda-**

Hilda- is the asteroid discovered by astronomer J. Palisael November 2, 1875-

## **hildburg-**

Hildburg- is the asteroid discovered by astronomer A. Kopff on August 8, 1909-

## **himenópteros**

Himenopterose is of a // order of insects with two pairs of wings driving and is also characterized by inability of larvae survive to their needs ( bees, wasps, ants ).

## **himenópteros**

Himenopterose is of a // order of insects that are characterized by two pairs of motor wings which are attached during the flight.

## **hinojos**

. vegetable in their structures or forms are, semejantes-parecidos - appears the biznaga

## **hinquen**

corresponds to the expression " " introducing or stick something else " ". -

## **hioglosos**

relating or belonging to the tongue and the hyoid

## **hiosciaminas**

. belonging to the alkaloid or drug, obtained from the stramonium-family of the Solanaceae - and also the Mandrake and the henbane, to stomach, intestinal problems -

## **hioscina**

hyoscine-it is an alkaloid extracted from the root of belladonna, from the beleño or mandrake, nightshade plants; is a depressant of the nerve endings and brain, produces drowsiness and temporary loss of memory; medically it is used for dizziness and nausea of travel, as an antiparkinsonian and to dilate the pupils in ophthalmology-

## **hioscinas**

. belonging to the alkaloid or drug, obtained from the belladonna-family of the Solanaceae - and also of the Thornapple -

## **hipertensos**

that elevated blood pressure have values-

## **hipno**

God of sleep, equivalent to the Greek Morpheus. He was brother of Eros-

## **hipnóticos**

relating or pertaining to hypnotism

## **hipocráticos**

relating or pertaining to Hippocrates or his doctrine

**hipodáctilos**

relating or belonging to the lower part of the fingers of the birds-

**hipofesto**

name given to a variety or species (-) Thistle corridor

**hipogeos**

It's prehistoric underground constructions, especially tombs.

**hipogrifo**

fabulous animal / monstuoque was half tap, half-horse -

**hippo-**

Hippo- is the asteroid discovered by astronomerA. H . Charloisel on August 25, 1897-

**hippodamia-**

Hippodamia- is the asteroid discovered by astronomerM . F . Wolf; To. Kopffel on November 5, 1901-

**hipposis**

Hipposis-refers to an ancient trading ship with ample cargo capacity, 1 rectangular sail, rounded stern, used by the Phoenicians-

**hirtos**

hirtos- belonging to a type of vegetable clothing covered with long and rigid hairs, but less stiff than hyspid-

**hirtos hirsutos**

hirsute hirtos - belonging to a type of vegetable clothing coated with long and rigid hairs, but less stiff than hyspid-

**hirtos o hirsutos**

hirtos or hirsutes-belonging to a type of vegetable clothing covered with long and rigid hairs, but less stiff than hyspid-

**hirtos-hirsutos**

hirtos-hirsutes- belonging to a type of vegetable indumentum covered with long and rigid hairs, but less stiff than hyspid-

**hirtus, hirsutos**

hirtos, hirsutes- belonging to a type of vegetable indumentum covered with long and rigid hairs, but less stiff than hyspid-

**hirudíneos**

Hirudineosse is of a // unasubclase of annelid worms such as leeches.

**hirundo**

Hirundo-this is the asteroid discovered by astronomer J. Helffrich on October 9, 1910-

## **hispania-**

Hispania- is the asteroid discovered by the astronomer J. Comas y Solá on March 20, 1915-

## **hispánicos**

relating or belonging to lospueblos of Spanish origin

## **hispídulo**

hispídulo- is said of a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp. -

## **hispídulo híspido**

Hypsidulo hispídulo - it is said of a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp.

## **hispídulo o híspido**

hispídulo or hypsidulo - it is said of a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp-

## **hispídulo, híspido**

hispídulo , hypsidulo - is said of a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp.

## **hispídulo-híspido**

hispídulo-híspido- is said of a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp. -

## **hispídulos**

hispídulos- belonging to a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp.

## **hispídulos híspidos**

hypsid hypsidules - belonging to a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp.

## **hispídulos o híspidos**

hispídulos or hypsids- belonging to a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp.

## **hispídulos, híspidos**

hispídulos, hypsids- belonging to a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp. -

## **hispídulos-híspidos**

hispídulos-híspidos- belonging to a type of vegetal indumentum covered with trichomes or very long and rigid hairs, almost sharp- .

## **hídricos**

water, that they are relating or belonging to the = water.

## **hípicos**

relating or pertaining alcaballo

## **hípnicos**

relating or pertaining alsueno

## **híspido**

hyspid - it is said of a type of vegetable clothing covered with trichomes or very long and rigid hairs, almost sharp-

## **híspido hispídulos**

hyspid hispídulos- it is said of a type of vegetable indument covered with trichomes or very long and rigid hairs, almost sharp-

## **híspido o hispídulo**

hyspid or hispídulo- it is said of a type of vegetable indument covered with trichomes or very long and rigid hairs, almost sharp. -

## **híspido o pelierizado**

hyspid or pelierized - it is said of a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp. -

## **híspido pelierizado**

pelierized hyspid - it is said of a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp. -

## **híspido, hispídulo**

Hyspid, hispídulo- is said of a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp. -

## **híspido, pelierizado**

hyspid, pelierized- it is said of a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp. -

## **híspido-hispídulo**

Hyspidus-hispídulo is said of a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp. -

## **híspido-pelierizado**

hyspid-pelierized- is said of a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp. -

## **híspidos**

hyspids- belonging to a type of vegetable clothing covered with trichomes or very long and rigid hairs, almost sharp. -

## **híspidos o pelierizados**

hyspid or pelierized - it is said of a type of vegetable indument covered with trichomes or very long and rigid hairs, almost sharp. -

## **híspidos pelierizados**

Pelierized hyspids is said of a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp.

## **híspidos, pelierizados**

hyspids, pelierized- belonging to a type of vegetable clothing covered with trichomes or very long and rigid hairs, almost sharp-

## **híspidos-pelierizados**

Hyspid-pelierized- is said of a type of vegetable indumentum covered with trichomes or very long and rigid hairs, almost sharp.

## **hísticos**

relating or pertaining to organic lostejidos

## **hocicar**

refers to the action of the bull to snout with any object. The blow given by the bull with the snout is called hocicazo.

## **hodiernas**

says those things which are modernas-actuales.

## **hodiernos**

relating or pertaining aldia today

## **hodiernos**

It is freshly made, tender breads

## **hoggar**

Hoggar- refers to a star whose official name was approved on December 17, 2019, located in the constellation Taurus-

## **hohensteina-**

Hohensteina- is the asteroid discovered by astronomerF . H . Kaiser on April 28, 1914-

## **holcos**

belonging to a variety or species white dehen-

**holmia**

Holmia-is the asteroid discovered by astronomer A. h. Charlois on December 6, 1893-

**holósteos**

Holosteosse is of a // unasubclase of freshwater fish that represents a transition between the condrosteos and the teleosts, and comprising mainly fossil forms.

**homam**

Homam- refers to a star whose official name was approved on August 21, 2016, located in the constellation Pegasus-

**hombría**

It is said of the quality or quality or condition ofman-

**hominales**

relating or pertaining guy

**homínidos**

HOMINIDS or Hominianosse is of a // unasuborden of living and fossil Primate mammals that includes modern man.

**homópteros**

Homopterosse is of a // unaorden of insect wings equal hemipteroides, often vegetarian, such as the cicada and the aphid.

**hondos**

that tienencierta depth

**hondón**

said of the interior of an object ground hollow. // needle hole through which is threaded.

**honeycrisp**

belonging to a variety or species demanzana-

**honor**

diosalegorico-represented by young's hair long-Crown of laurel

**honorabilidad**

It is said the quality or quality or condition Dela honorable person -

**honradez**

honesty -. It is said of the quality or quality or condition deprobo

**honrosidad**

It is said of the quality or quality or condition dehonoroso-

### **hormigón de los prados**

concrete meadows-refers to the expression : medicinal plant, erect, robust, very smelly, with obtuse leaves, scalloped and basal rosette shape; it is used in medicine as a healer

### **hormuthia-**

Hormuthia- is the asteroid discovered by the astronomer. F . Wolf on April 17, 1915-

### **horna**

Horna- refers to a star whose official name was approved on December 17, 2019, located in constellation Triangulum-

### **horno-**

Furnace- it is said of a constellation located in cosmic zone Southern or Southern Hemisphere-

### **hortenses**

relating or belonging to lashuertas

### **horus**

refers to a God that is characterized by its bondad-Era son of Isis-Osiris, was born through the magic, after the death of his father and avenged him killing his uncle Seth in a great battle, in which the God of wisdom lost an ojo-Era the sovereign that it unified Egypt and why God was worshiped throughout the country-

### **huairuro**

. belonging to the frutodel name huairo or ormosia coccinea -

### **huairuros**

. belonging to the name of the huairo frutodel-

### **huanguelenses**

. says, argentina-provincia Buenos Aires, for children born in town of Republic: Huanguelen -

### **huarmi**

huarmi-is a species of herbaceous plant, annual, of the family Asteraceae, about 70 cm high, very toxic, considered a weed, native to South America; it has opposite leaves, small pink or white flowers of nauseating smell, becoming a weed of the tropical areas of the world-It is used medicinally as an antibacterial or antiarthritic, also, for its essential oils, it is used in cosmetics; is toxic to mammals-
