

SPANISH DICTIONARY

GARCÍA ALBERTO

## INTRODUCTION

amp.wordmeaning.org is an open and collaborative dictionary project that, apart from being able to consult meanings of words, also offers its users the possibility of including new words or nuancing the meaning of existing words in it. As is understandable, this project would be impossible to carry out without the esteemed collaboration of the people who follow us around the world. This e-Book, therefore, was born with the intention of paying a small tribute to all our collaborators.

GARCÍA ALBERTO has contributed to the dictionary with 14462 meanings that we have approved and collected in this small book. We hope that the reader is very valuable and if you find it useful or want to be part of the project, do not hesitate to visit our website, we will be delighted to receive you.

Working Group

[amp.wordmeaning.org](http://amp.wordmeaning.org)

**iracas**

Jishui- refers to a star whose official name was approved on June 30, 2017, located in the constellation Gemini-

## **jitnues**

Jitnues-members of an Amerindian people originally from Colombia, with habitat in the department of Arauca-

## **jive**

Jive-Amerindian people originally from Colombia, had their habitat in departments of Vichada. Goal-

## **jives**

Jives-members of an Amerindian people originally from Colombia, with habitat in departments of Vichada-Meta-

## **jiw**

Jiw-Amerindian people originally from Colombia, had its habitat in departments of Guaviare-Meta-

## **jiwes**

Jiwes-members of an Amerindian people originally from Colombia, with habitat in departments of Guaviare-Meta-

## **jía**

jía-refers to a species of plum, wild shrub, small, thorny, bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, of pleasant flavor. Generally, it has its habitat in forested regions.

## **jía ababuy**

Ababuy-refers to a species of plum tree, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions.

## **jía manzanilla**

jía chamomile-refers to a species of plum, wild shrub, small, thorny, bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, of pleasant flavor. Generally, it has its habitat in forested regions.

## **jía manzanilla ababuy**

Chamomile ababuy-refers to a species of plum tree, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions.

## **jía manzanilla o ababuy**

Chamomile or ababuy-refers to a species of plum tree, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions.

## **jía manzanilla,ababuy**

Chamomile jia, ababuy-refers to a species of plum tree, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions.

## **jía manzanilla-ababuy**

Jia chamomile-ababuy-refers to a species of plum tree, wild shrub, small, thorny, with bright green oval leaves with a

strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions.

### **jía o ababuy**

Jia or ababuy-refers to a species of plum tree, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions.

### **jía,ababuy**

Jia, ababuy-refers to a species of plum tree, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant in flavor. Generally, it has its habitat in forested regions.

### **jía-ababuy**

Jia-ababuy-refers to a species of plum tree, wild shrub, small, thorny, with bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, pleasant flavor. Generally, it has its habitat in forested regions.

### **jocómico**

jocómico- refers to a species of plum, wild shrub, small, thorny, bright green oval leaves with a strong aroma of almonds, pale flowers, yellow or orange-red fruits, of pleasant flavor. Generally, it has its habitat in forested regions.

### **joëlla**

Joëlla- is the asteroid discovered by astronomer J. H . Metcalf on November 22, 1911-

### **johanna-**

Johanna- is the asteroid discovered by astronomer M. P . Henry on November 5, 1872-

### **jole-**

Jole- is the asteroid discovered by the astronomer M. F . Wolf on September 23, 1916-

### **jonagold**

belonging to a variety or species demanzana-

### **jonathan**

belonging to a variety or species demanzana-

### **jovianos**

relating or belonging alplaneta jupiter

### **jubetes**

also known under the name of ojeteados Doublets.

### **judiciales**

relating or pertaining aljuicio or to the administration of Justice

## **judiciales**

relating or belonging to lajudicatura

## **judi6nes**

belonging to a variety or species larger than normal dejudia-

## **judith-**

Judith- this is the asteroid discovered by astronomerA. Kopffel on June 24, 1908-

## **juewa**

Juewa- is the asteroid discovered by astronomer J. C . Watsonon October 10, 1874-

## **juje6nos**

jujenosvocablo used in political geography - in the Argentina Republic, said of the naturalesde the dejujuy province

## **julia**

Julia- refers to alasteroid discovered by E. J. M. Stephanel August 6, 1866-

## **juliana-**

Juliana- is the asteroid discovered by the astronomer. F . Wolf on February 8, 1916-

## **juna**

Juna-Amerindian people originally from Colombia, had its habitat in the department of Vaup6s-

## **junas**

Junas-members of an Amerindian people originally from Colombia, with habitat in the department of Vaup6s-

## **junco-**

Junco- small sailing or rowing boat, one of the oldest known and still in use in many parts of Southeast Asia-

## **juncos**

Junks – belonging to a small sailing or rowing vessel, one of the oldest known, and is still in use in many parts of Southeast Asia

## **juninenses**

. says, argentina-provincia Buenos Aires, for children born in town of Republic: Junin -

## **juno**

Juno- asteroid discovered byK. L. Harding on September 1, 1804-

## **jupda**

Jupda-Amerindian people originally from Colombia, had their habitat in the department of Vaup6s-

**jupdas**

Jupdas-members of an Amerindian people originally from Colombia, with habitat in the department of Vaupés-

**jupichiya**

Jupichiya-Amerindian people originally from Colombia, had their habitat in the department of Amazonas-

**jupichiyas**

Jupichiyas-members of an Amerindian people originally from Colombia, with habitat in the department of Amazonas-

**jupiterianos**

relating or belonging alplaneta jupiter

**justicia**

said Dela Roman personification of the fair, also called justice Augusta -

**juventa**

It says ofa nymph that Jupiter transformed into source, and had the virtue of rejuvenate who paddled the body into its waters -

**kabar**

kabar-refers to a certain type of Russian vessel currently in use in the Black Sea-

**kabares**

kabares-belonging to a certain type of Russian vessel currently in use in the Black Sea-

**kabiyarí**

Kabiyarí, an Amerindian people originally from Colombia, had their habitat in the departments of Amazonas-Vaupés.

**kabiyaríes**

Kabiyaríes—members of an Amerindian people native to Colombia, with habitat in Amazonas-Vaupés departments.

**kaffaljdhma**

Kaffaljdhma- refers to a star whose official name was approved on February 1, 2017, located in the constellation Cetus-

**kaiaac**

Kaiaac- Eskimo boat for men, made of seal skins and used for fishing-

**kaiak**

Kaiak- Eskimo boat for men, made of seal skins and used for fishing-

**kakwa**

Kakwa, an Amerindian people originally from Colombia, had their habitat in the department of Vaupés.

**kakwas**

Kakwas—members of an Amerindian people originating in Colombia, with habitat in the department of Vaupés.

**kalausi**

Kalausi- refers to a star whose official name was approved on December 17, 2019 located in constellation Sail-

**kalipso**

Kalypso- asteroid discovered by K. T. R. Luther on April 4, 1858-

**kalliope**

Kalliope- asteroid discovered by J. R. Hind on November 16, 1852-

**kallisto**

Kallisto- is the asteroid discovered by astronomer J. Palisa on October 8, 1879-

**kalypso o calipso**

Kalypso or Calypso-refers to an asteroid discovered by astronomer K. T. R. Luther on April 4, 1858-

**kalypso, calipso**

kalipso, calypso-refers to a star whose official name was approved the K. T. R. Luther on April 6, 1858-

**kalypso-calipso**

Kalypso - Calypso-refers to an asteroid discovered by astronomer K. T. R. Luther on April 5, 1858-

**kama**

God del amor

**kamejeya**

Kamejeya, an Amerindian people originally from Colombia, had their habitat in the department of Amazonas.

**kamejeyas**

Kamejeyas—members of an Amerindian people originally from Colombia, living in the department of Amazonas—

**kamentsa**

Kamentsa, an Amerindian people originally from Colombia, had their habitat in the department of Putumayo.

**kamentsas**

Kamentsas, members of an Amerindian people originally from Colombia, living in the department of Putumayo.

**kampa**

Kampa, an individual of an indigenous Amerindian people spread across what is now Peru and Brazil,

**kampas**

Kampas, members of an indigenous Amerindian people spread across what is now Peru and Brazil,

**kamsá**

Kamsá, an Amerindian people originally from Colombia, had their habitat in the department of Putumayo.

**kamsáes**

Kamsáes—members of an Amerindian people originally from Colombia, living in the department of Putumayo—

**kamuy**

Kamuy- refers to a star whose official name was approved on December 17, 2019, located in the constellation Corona Borealis-

**kang**

Kang- refers to a star whose official name was approved on June 30, 2017, located in the constellation Virgo-

**kaniwa**

Kaniwa, an Amerindian people originally from Colombia, had their habitat in the departments of Vaupés-Guaviare.

**kaniwas**

Kaniwas—members of an Amerindian people originating in Colombia, with habitat in the departments of Vaupés-Guaviare—

**kankuaca**

Kankuaka, an Amerindian people originally from Colombia, had their habitat in the department of Cesar.

**kankuakas**

Kankuakas—members of an Amerindian people native to Colombia, living in the department of Cesar—

**kapteynia-**

Kapteynia- is the asteroid discovered by the astronomer. F . Wolf on February 21, 1916-

**karaka**

Karaka- refers to a star whose official name was approved on December 17, 2019, located in the constellation Apus-

**karate**

Karate or karate, is an elementoen martial japonesaarte culture = mode of fighting hand-to-hand with hands and feet -

**karbas**

Karbas-belonging to a certain type of Russian rowing boat, shallow draft and for calm waters, is used for transport and fishing-

### **karfi**

karfi- refers to a certain type of rowing boat from the estuaries of Iceland, used in calm waters-

### **karin-**

Karin- is the asteroid discovered by astronomer M. F . Wolf on September 20, 1916-

### **karite**

name given to a variety or species (-) almond butter.

### **karola**

. belonging to one variety or species defresa, Strawberry -

### **kartvelia-**

Kartvelia- this is the asteroid discovered by astronomer G. N . Neúiminel on January 25, 1914-

### **kasandra**

Kassandra- this is the asteroid discovered by the astronomerC. H . F . Petersel on July 23, 1871-

### **katcha**

Katcha- refers to a certain type of Russian single-masted vessel, used in very northern latitudes.

### **katchas**

Katchas-belonging to a Russian single-masted vessel, used in very northern latitudes. -

### **kaus australis**

Kaus Australis- refers to a star whose official name was approved on July 20, 2016, located in the constellation Sagittarius-

### **kaus borealis**

Kaus Borealis- refers to a star whose official name was approved on July 20, 2016, located in the constellation Sagittarius-

### **kaus media**

Kaus Media- refers to a star whose official name was approved on July 20, 2016, located in the constellation Sagittarius-

### **kaveh**

Kaveh- refers to a star whose official name was approved on December 17, 2019, located in the constellation Serpens-

### **kayaks**

kayaks - belonging to an Eskimo boat exclusively for men, made of seal skins and used for fishing-

### **kággabba**

Kággabba, an Amerindian people originally from Colombia, had their habitat in the departments of La Guajira-Cesar-Magdalena.

### **kággabbas**

Kaggabbas-members of an Amerindian people originating in Colombia, with habitat in the department of La Guajira-Cesar-Magdalena-

### **keid**

Keid- refers to a star whose official name was approved on September 12, 2016, located in the constellation Eridanus-

### **kendo**

martial art = mode of fighting hand-to-hand with rods of bamboo-

### **kendo**

martial art practiced with bamboo swords-

### **khambalia**

Khambalia- refers to a star whose official name was approved on September 5, 2017, located in the constellation Virgo-

### **kianpraty**

Kianpraty- refers to the expression : sea monster that according to legend, had its habitat in the vicinity of swamps, streams and rivers

### **kif**

name given to a variety or species (-) East hemp

### **kif**

name given to a variety or species (-) East hemp

### **kilia-**

Kilia- is the asteroid discovered by the astronomer. Carnera on April 21, 1901-

### **kiosko-**

kiosk-refers to a certain type of vessel used in Turkish ports, sailing, motor or combined-

### **kioskos**

kiosks - belonging to a vessel used in Turkish ports, sailing, motor or combined-

### **kitalpha**

Kitalpha- refers to a star whose official name was approved on August 21, 2016, located in the constellation Equuleus-

### **kiwi**

. belonging to the name of the fruit of the kiwi or Kiwi -

### **kiwis**

. belonging to the name of the fruit of the kiwi or Kiwi -

### **klio**

Klio- this is an asteroid discovered by astronomer K. T. R. Luther on August 25, 1865-

### **klio o clio**

Klio or Clio-refers to an asteroid discovered by astronomer K. T. R. Luther on August 26, 1865-

### **klio, clio**

Klio, Clio- refers to an asteroid discovered by astronomer K. T. R. Luther on August 27, 1865-

### **klio-clio**

Klio - Clio- refers to an asteroid discovered by astronomer K. T. R. Luther on August 26, 1865-

### **kloskomba**

Kloskomba-refers to the expression : Creator God, legendary figure of the Wabanaki Peoples, whose name means "man who came from nowhere"-

### **klotho**

Klotho-this is the asteroid discovered by astronomer E. W. L. Tempel on February 17, 1868-

### **klumpkea**

Klumpkea- is an asteroid discovered by astronomer B. P. Jekhowsky on January 20, 1925-

### **kluscap**

Kluscap-refers to the expression : Creator God, legendary figure of the Wabanaki Peoples, whose name means "man who came from nowhere"-

### **klymene**

Klymene- is the asteroid discovered by astronomer J. C. Watson on September 13, 1868-

### **klytaemnestra**

Klytaemnestra- is the asteroid discovered by astronomer J. C. Watson on November 11, 1877-

### **klytia**

Klytia-this is the asteroid discovered by astronomer H. Q. Tuttle on April 7, 1862-

**knarr**

knarr-refers to an ancient typical ship used by the Vikings for transportation-

**kobos**

-mammal-like, similar to Antelope, of grey fur clear, inhabits the wetlands of South Africa-

**kochab**

Kochab- refers to a star whose official name was approved on July 20, 2016, located in the constellation Ursa Minor-

**koeia**

Koeia- refers to a star whose official name was approved on December 17, 2019, located in the constellation Eridanus-

**kof**

Kof-refers to an old Dutch vessel with sail maneuver as the sloop-

**koit**

Koit- refers to a star whose official name was approved on December 17, 2019, located in the constellation Lynx-

**kolga**

Kolga- this is the asteroid discovered by astronomer C. H . F . Peters, September 30, 1878-

**konebaad**

konebadd-refers to a boat used in Greenland and whose crew is usually female-

**kopapa**

kopapa-refers to a certain type of canoe made of one piece, used in New Zealand-

**kopapas**

kopapas-belonging to a canoe made of one piece, used in New Zealand-

**korinaia**

Korinaia-refers to a certain type of Russian river boat of shallow draft, very light, used for transport-

**korinaias**

Korinaias-belonging to a Russian river boat of shallow draft, very light, used for transport-

**kornephoros**

Kornephoros- refers to a star whose official name was approved on August 21, 2016, located in the constellation Hercules-

**korona**

. belonging to one variety or species defresa, Strawberry -

**koronis**

Koronis- is the asteroid discovered by the astronomer V. K . Knorre on January 4, 1876-

**kosnaia**

Kosnaia-it is a typical Russian boat of the Volga River, used for tourism in calm waters-

**kosnias**

kosnias- belonging to a typical Russian boat of the Volga River, used for tourism in calm waters-

**kotia**

Kotia-refers to a certain type of Western Arab warship with two or three masts-

**kraz**

Kraz- refers to a star whose official name was approved on June 1, 2018, located in the constellation Corvus-

**kressmannia-**

Kressmannia - is the asteroid discovered by the astronomer M. F . Wolf on March 20, 1915-

**kreusa**

Kreusa - this is the asteroid discovered by astronomer M. F . Wolf and L . Carnera on June 26, 1902-

**kubba**

Arabic funerary monument, erected over a grave.

**kubbas**

It's arlevantados funeral monuments over graves. -

The Corona Borealis -is said of a constellation located in cosmic zone northern hemisphere or Boreal-

### **la cruz del norte**

The Northern Cross is said to be a constellation located in the cosmic northern hemisphere or Boreal.

### **la cruz del sur**

The Southern Cross is said to be a constellation located in the cosmic zone of the Southern Circumpolar Zone.

### **la culebra**

The Culebra-it is a constellation located in the cosmic area Circumpolar Sur-

### **la dorada**

The Golden-refers to a constellation located in the cosmic zoneCircumpolar Sur-

### **la dorada-**

The Golden is said to be a constellation located in the cosmic zone of the Southern Circumpolar

### **la erida**

Erida-is the asteroid discovered by astronomer J. Palisa on September 29, 1911-

### **la erminia**

Erminia-is the asteroid discovered by astronomer E. Ernst on October 6, 1910-

### **la escuadra**

The Square is said to be a constellation located in the South Circumpolar cosmic zone.

### **la eugenia**

Eugenia-it is an asteroid discovered by H. M. S . Goldschmidt on June 27, 1857-

### **la eunomia**

The Eunomia- refers to an asteroid discovered by A. Gasparis on July 29, 1851-

### **la flecha**

The Arrow is said to be a constellation located in the cosmic zone of the northern or boreal hemisphere

### **la flora**

Flora-is an asteroid discovered by J. R. Hindel 18 October 1847-

### **la fortuna**

Fortune-this is an asteroid discovered by J. R. Hind on August 22, 1852-

### **la freia**

The Freia-refers to an asteroid discovered by H. L. D 'Arrest on October 21, 1862-

### **la fringilla**

The Fringilla-is the asteroid discovered by astronomer J. Helffrich on February 3, 1911-

### **la grulla**

The Crane is said to be a constellation located in the cosmic zone of the Southern Circumpolar

### **la helena**

Helena- is the asteroid discovered by astronomer J. C . Watson on August 15, 1868-

### **la hidra**

The Hydra is said to be a constellation located in the cosmic zone of the southern or southern hemisphere.

### **la hidra macho**

The Male Hydra is said to be a constellation located in the cosmic zone of the Southern Circumpolar Zone.

### **la industria**

The Industry- this is the asteroid discovered by the astronomer A. H . Charloisel on March 8, 1894-

### **la isara**

The Isara- this is the asteroid discovered by the astronomer. H. Charlois on March 19, 1893-

### **la jirafa**

The Giraffe is said to be a constellation located in the North Circumpolar cosmic zone.

### **la lampetia**

Lampetia- is the asteroid discovered by astronomer M. F . Wolf on November 4, 1894-

### **la liebre**

The Hare is said to be a constellation located in the cosmic zone of the southern or southern hemisphere

### **la lira**

The Lyra is said to be a constellation located in the cosmic northern hemisphere or Boreal.

### **la luscinia**

Luscinia is an asteroid discovered by astronomer J. Helffrich on April 18, 1911-

### **la maja**

The Maja-is the asteroid discovered by the astronomerH. Q. Tuttle on April 9, 1861-

### **la máquina neumática**

The Pneumatic Machine is said to be a constellation located in the cosmic zone of the southern or southern hemisphere

### **la mesa-**

The Mesa is said to be a constellation located in the cosmic zone of the Southern Circumpolar Zone.

### **la mimosa**

Mimosa- refers to a star whose official name was approved on July 20, 2016, located in the constellation Cross-

### **la mosca**

The Fly is said to be a constellation located in the South Circumpolar Cosmic Zone.

### **la oriola**

Oriola-is the asteroid discovered by astronomer J. Helffrichel on July 12, 1910-

### **la osa mayor**

The Big Dipper is said to be a constellation located in the North Circumpolar cosmic zone.

### **la osa menor**

Ursa Minor is said to be a constellation located in the cosmic zone of the North Circumpolar Circuit.

### **la paloma**

La Paloma is said to be a constellation located in the cosmic zone of the Southern or Southern Hemisphere

### **la paz**

La Paz- is an asteroid discovered by astronomer M. F . Wolf on October 31, 1923-

### **la plata**

La Plata- is an asteroid discovered by astronomer J. F . Hartmannel on April 28, 1924-

### **la popa**

La Popa-is said to be a constellation located in the cosmic zone of the southern or southern hemisphere.

### **la sorga**

La Sorga- is the asteroid discovered by astronomer A. Massinger on April 15, 1912-

### **la superba**

The Superba- refers to a star whose official name was approved on August 10, 2018, located in the constellation Canes Venatici-

### **la ursula**

Ursula is an asteroid discovered by astronomer A. h. Charlois on September 18, 1893-

### **la victoria**

La Victoria- is the asteroid discovered by astronomer J. R . Hind on September 13, 1850-

### **la virginia**

Virginia- is the asteroid discovered by astronomer J. Ferguson on October 4, 1857-

### **la watsonia**

Watsonia- is the asteroid discovered by astronomer J. H . Metcalf on February 9, 1912-

### **labranza**

farming-refers to the expression : work carried out in any art or trade

### **labruscas**

belonging to a variety or species deuva-

### **lacas**

. belonging to the resin of trees from East, flesh color, whose exudation is produced by insect bites -

## **ladón**

fabulous animal / monstruoera a dragon-monstruo of a hundred heads -

## **laetitia**

Laetitia-this is the asteroid discovered by astronomer J. Chacornac on February 8, 1856-

## **lagash**

Lagash-refers to the expression : ancient Sumerian city of Mesopotamia, from the third millennium to . C , discovered by the excavations carried out in 1887-

## **lagomorfos**

LAGOMORFOSse is of a // unasuborden of rodents, such as the Hare and rabbit mammals.

## **lagopo**

It's a kind of clover, also called " " Hare 39 foot; "-

## **lagopos**

the lagopos embellish the landscape with its branches so tupidas-pertenecientes to a variety or species detrebol-

## **lagrangea**

Lagrangea- is an asteroid discovered by astronomer S. I . Belyavsky on September 12, 1923-

## **laicales**

relating or belonging to loslegos

## **lairenes**

belonging to a variety or species deuva-

## **lakshmi**

deity of good fortune and abundance, love and beauty, fertility, and the Lotus flower is very beloved in the India.

## **lalage-**

Lalage- is the asteroid discovered by astronomer M. F . Wolf on March 31, 1916-

## **lamas**

refers to " " sheet-metal " "-

## **lamaserías**

It refers to the monasteries of the Lamas. -

## **lamberta-**

Lamberta- is the asteroid discovered by the astronomer J. And. Coggia on April 11, 1878-

## **lambrón**

lambron - refers to the expression: greedy, fond of eating sweets -

## **lampalaguas**

they are ofídeos of the Americas whose name is " " Boa constrictor occidentalis " " , and are also known with the name of the Vizcachas boas. -

## **lampiño glabro**

Glabrous lampiño is said of a type of vegetable clothing without trichomes or hairs on its surface-

## **lampiño o glabro**

lampiño or glabrous- it is said of a type of vegetable clothing without trichomes or hairs on its surface-

## **lampiño, glabro**

Lampiño , glabro- is said to be a type of vegetable indument without trichomes or hairs on its surface-

## **lampiño-**

lampiño- it is said of a type of vegetable clothing without trichomes or hairs on its surface-

## **lampiño-glabro**

Lampiño-glabro- is said to be a type of vegetable clothing without trichomes or hairs on its surface-

## **lampiños**

lampiños-belonging to a type of vegetable indument without trichomes or hairs on its surface-

## **lampiños glabros**

glabrous lamps- belonging to a type of vegetable clothing without trichomes or hairs on its surface-

### **lampiños o glabros**

lampiños or glabros- belonging to a type of vegetable clothing without trichomes or hairs on its surface-

### **lampiños, glabros**

lampiños, glabros- belonging to a type of vegetable clothing without trichomes or hairs on their surface-

### **lampiños-glabros**

lampiños-glabros- belonging to a type of vegetable clothing without trichomes or hairs on its surface-

### **lanado**

woolening—is said to be a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

### **lanado lanoso**

woolly wool- is said to be a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool-

### **lanado o lanoso**

woolly or woolly - it is said of a type of vegetable clothing covered by trichomes or long and wavy hairs that look like strands of wool.

### **lanado, lanoso**

woolly, woolly- it is said of a type of vegetable clothing covered by trichomes or long and wavy hairs that look like strands of wool-

### **lanado-lanoso**

woolly-woolly- is said to be a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

### **lanados**

wool- belonging to a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool-

### **lanados lanosos**

woolly woolling- belonging to a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool-

### **lanados o lanosos**

woolly or woolly - belonging to a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool. -

### **lanados, lanosos**

woolly, woolly- belonging to a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lanados-lanosos**

woolly-belonging to a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lancanes**

Boats - belonging to a certain type of large Philippine vessel, is always in tow and is used for loads-

**lancán**

Philippine boat-boat of large dimensions, is always in tow and is used for loads-

**lanchara**

lanchara- refers to a certain type of boat from India used in rivers and seas- .

**lancharas**

lancharas-belonging to an Indian vessel used in rivers and seas. -

**landas**

It's large expanses of flat land in which wild plants-single breed

**laneros**

relating or belonging to lalana

**lanitro**

delaire - the winds of God

**lanífero lanoso**

Laniferous woolly- It is said of a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool. -

**lanífero o lanoso**

laniferous or woolly- is said to be a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lanífero, lanoso**

laniferous, woolly- is said to be a type of vegetable indument covered by trichomes or long, wavy hairs that look like strands of wool.

**lanífero-**

Laniferous- It is said of a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lanífero-lanoso**

laniferous-woolly- is said to be a type of vegetable indument covered by trichomes or long, wavy hairs that look like strands of wool.

**laníferos**

lanifers - belonging to a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool-

**laníferos lanosos**

woolly lanifers - belonging to a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**laníferos o lanosos**

laniferous or woolly- belonging to a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool. -

**laníferos, lanosos**

laniferous, woolly- belonging to a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**laníferos-lanosos**

laniferous-woolly- belonging to a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool. -

**lanoso afieltrado**

Felted wool - it is said of a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool. -

**lanoso lanudo**

woolly woolly- It is said of a type of vegetable indument covered by trichomes or long, wavy hairs that look like strands of wool.

**lanoso lanuginoso**

lanuginous wool - it is said of a type of vegetable clothing covered by trichomes or long wavy hairs that look like strands of wool-

**lanoso o afieltrado**

woolly or felt- it is said of a type of vegetable clothing covered by trichomes or long wavy hairs that look like strands of wool-

**lanoso o lanudo**

woolly or woolly- it is said of a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lanoso o lanuginoso**

woolly or lanuginous - it is said of a type of vegetable indument covered by trichomes or long wavy hairs that look like strands of wool. -

**lanoso,afieltrado**

woolly, felted - it is said of a type of vegetable clothing covered by trichomes or long wavy hairs that look like strands of wool-

**lanoso,lanudo**

woolly, woolly- it is said of a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lanoso,lanuginoso**

woolly, lanuginous - it is said of a type of vegetable clothing covered by trichomes or long wavy hairs that look like strands of wool-

**lanoso-**

woolly- it is said of a type of vegetable indument densely covered with crisscrossed and compacted hairs.

**lanoso-afieltrado**

Woolly-felted is said to be a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lanoso-lanudo**

woolly-woolly- is said to be a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lanoso-lanuginoso**

woolly-lanuginous - is said to be a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lanosos**

woolly- belonging to a type of vegetal clothing densely covered with criss-crossed and compacted hairs.

**lanosos - lanados**

woolly-woolly- belonging to a type of plant clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lanosos lanados**

woolly wool - belonging to a type of vegetal clothing densely covered with intertwined and compacted hairs.

**lanosos laníferos**

woolly wool-belonging to a type of plant clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lanosos lanudos**

woolly woolly - belonging to a type of plant clothing covered by trichomes or long, wavy hairs that look like strands of wool

**lanosos o lanados**

woolly or woolly - belonging to a type of vegetal clothing densely covered with criss-crossed and compacted hairs.

**lanosos o laníferos**

woolly or woolly - belonging to a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lanosos o lanudos**

woolly or woolly- belonging to a type of plant clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lanosos o lanuginosos**

woolly or woolly - belonging to a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lanosos,lanados**

woolly, woolly- belonging to a type of vegetal clothing densely covered with criss-crossed and compacted hairs.

**lanosos,laníferos**

woolly, woolly- belonging to a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lanosos,lanudos**

woolly, woolly - belonging to a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lanosos-lanados**

woolly-woolly- belonging to a type of vegetal clothing densely covered with criss-crossed and compacted hairs-

**lanosos-lanudos**

woolly-woolly- belonging to a type of vegetable clothing covered by trichomes or long, wavy hairs that look like strands of wool.

**lantcha**

lantcha-refers to a certain type of Malaysian vessel with sloop rigging. -

**lantchas**

lantchas- belonging to a certain type of Malaysian vessel with sloop rigging. -

**lantea**

lantea-refers to a type of vessel used in different areas located in Canton and Macau. -

**lanteas**

lanteas-belonging to a used vessel formerly used in Canton and Macau.

## **lanuginosos**

to tienenlanosidad-

## **lanusenses**

. says, argentina-provincia Buenos Aires, for children born in town of Republic: Lanus -

## **lanzia-**

Lanzia- is the asteroid discovered by the astronomer M. F . Wolf on July 23, 1909-

## **lañas**

the lanasfueron consumed by children and they were taken to the hospital-belonging to a variety or species decoco Green

## **laodamia**

Laodamia- is an asteroid discovered by astronomer K. W . Reinmuth on January 5, 1924-

## **lapidarios**

relating or belonging to lasinscripciones on tombstones

## **lapidarios**

relating or belonging altallado of precious stones. -

## **lapídeos**

relating or belonging to laspiedras

## **larawag**

Larawag- refers to a star whose official name was approved on November 19, 2017, located in the constellation Scorpius-

## **lardee**

term that refers to " spread or wrap with lard or fat what will be roasting ". -

## **laricina**

laricin-it is a glycoside found in Abietaceae plants, with a slightly bitter taste, very soluble in hot water and alcohol, little in cold water and nothing in ether; is used in the manufacture of artificial perfumes-

## **laricina abietina**

abiethine laricin-it is a glycoside found in Abietaceae plants, slightly bitter in taste, very soluble in hot water and alcohol, little in cold water and nothing in ether; is used in the manufacture of artificial perfumes-

### **laricina o abietina**

laricine or abiethine-it is a glycoside found in Abietaceae plants, slightly bitter taste, very soluble in hot water and alcohol, little in cold water and nothing in ether; is used in the manufacture of artificial perfumes-

### **laricina o abietina-**

laricine or abiethine-belonging to a glycoside found in Abietaceae plants, slightly bitter in taste, very soluble in hot water and alcohol, little in cold water and nothing in ether; is used in the manufacture of artificial perfumes-

### **laricina, abietina**

laricin, abiethine-it is a glycoside found in Abietaceae plants, slightly bitter taste, very soluble in hot water and alcohol, little in cold water and nothing in ether; is used in the manufacture of artificial perfumes-

### **laricina-abietina**

laricin-abiethine-is a glycoside found in Abietaceae plants, with a slightly bitter taste, very soluble in hot water and alcohol, little in cold water and nothing in the ether; is used in the manufacture of artificial perfumes-

### **laricinas**

laricines- belonging to a glycoside found in Abietaceae plants, slightly bitter in taste, very soluble in hot water and alcohol, little in cold water and nothing in ether; is used in the manufacture of artificial perfumes-

### **laricinas abietinas**

abietine laricins - belonging to a glycoside found in Abietaceae plants, slightly bitter in taste, very soluble in hot water and alcohol, little in cold water and nothing in ether; is used in the manufacture of artificial perfumes-

### **laricinas o abietinas**

laricines or abietinas-belonging to a glycoside found in Abietaceae plants, slightly bitter in taste, very soluble in hot water and alcohol, little in cold water and nothing in ether; is used in the manufacture of artificial perfumes-

### **laricinas, abietinas**

laricines, abietines- belonging to a glycoside found in Abietaceae plants, slightly bitter in taste, very soluble in hot water and alcohol, little in cold water and nothing in ether; is used in the manufacture of artificial perfumes-

### **laricinos**

relating or belonging alalerce, plant-

### **lariforme**

LARIFORMEse is of a / / old unaorden of neognatas birds.

### **laros**

LAROSse is of a / / unasuborden of birds caradriformes-alas elongated and pointed, and abundant plumage, soft colors and morbid.

### **las acollaradas**

Las Acollaradas-refers to the expression : site of the province of San Luis, in Argentina,

## **las enéadas**

The Enéadas-refers to the expression : name given to a collection of 54 books written by Plotino, Greco-Roman philosopher -

diosantiguo of the India-

## **lataces**

-similar mammals like the Otter, but more large and hair more fine and shiny -

## **latanias**

belonging to a variety or species depalma of adornment of the Reunion Island with fan-shaped leaves.

## **laterales**

relating or pertaining Centre

## **lateranenses**

relating or belonging attemplo de San Juan de Letran, in Rome. -

## **laudes-**

laudes-belonging to a typical Mediterranean fishing boat, with a single stick, Latin sail and a mesana aft-

## **laurel añacate**

laurel added- fruit tree native to the central American area and especially in the Caribbean that gives a very appetizing fruit

## **laureles añacates**

laurels added -- belonging to a fruit tree native to the Central American area and especially the Caribbean, which bears a very appetizing fruit

**laurentia**

Laurentia- is the asteroid discovered by the astronomer M. P . Henry on April 21, 1876-

**laurinos**

relating or pertaining allaurel

**laúd-**

lute-typical Mediterranean fishing boat, with a single stick, Latin sail and a mesana aft-

**laúdano**

lauddano-refers to the tincture or extract of opium-

**laúdanos**

. belonging to the alkaloid or drug, obtenidaa starting from the tincture or extract of opium -

**lavanco**

lavanco-refers to the expression : type of podicipedipeds bird of the Podicipedidae family typical of the wetlands of Eurasia, Africa and Australasia-

**laxos**

lax: designation of those who do not have the tension that should naturally be-

**lácteos**

relating or belonging to laleche

**lácticos**

relating or belonging to laleche

**ládanos**

. belonging to lajara-resin, there are several species-formerly used in various preparations to relieve the cough -

**látigo**

It is a cord or strap that ensures and tightening the strap.

**lebrunas**

relating or belonging to laliebre or similar to it

**lechales**

. belonging to the type of fruit that contains latex-

**lechetrezna**

SPURGE, euforbiacea plant = ESULA

**lechines**

belonging to one variety or species deolivo -

**lechosas**

lechosas = to tienenapariencia of milk or the same qualities.

**lechosos**

Milky = ( it is said - of the ) who have or poseencualidades or appearance of milk.

**led**

in electronics, refers to a " " semiconductor diode that emits light when voltage is applied.

**leda**

Leda-this is the asteroid discovered by astronomer J. Chacornac on January 12, 1856-

**lefa**

lefa- refers to the set of sperm or sperm-

**legalidad**

says quality or quality or condition Delo is the law -

**legendarios**

relating or belonging to lasleyendas

**leguleyos**

people dealing with laws without knowing them in depth.

**legumbres**

. belonging to the type of fruit or seed breeding in pods-

**lehigh-**

Lehigh- is the asteroid discovered by astronomerJ. H . Metcalf on December 11, 1909-

**lembo**

lembo-old sailing and rowing boat, with a large number of rowers, used for transport and trade in the Mediterranean Sea-

**lembos**

lembos-old sailing and rowing boat, with a large number of rowers, used for transport and trade in the Mediterranean Sea-

**lemnios**

lemnios = are thus called the natives of the island of lemnos.

### **lemuroideo**

lemuroid-refers to the expression : it belongs to an ancient suborder that included prosy or false mono primates, prominent snout and nocturnal habits-

### **lemuroideos**

LEMUROIDEOSse is of a // unasuborden of primate mammals with well-developed olfactory lobes. SIN.: prosimio.

### **lena-**

This is the asteroid discovered by astronomer G. N . Neoimin on June 24, 1914-

### **lendemannia-**

Lindemannia - this is the asteroid discovered by astronomer J. Palisaon August 29, 1916-

### **lendemannia-**

Lindemannia - this is the asteroid discovered by astronomer J. Palisaon August 29, 1916-

### **lendemannia-**

Lindemannia - this is the asteroid discovered by astronomer J. Palisaon August 29, 1916-

### **lendrosos**

It is said of those who have many nits -

### **lenga**

lenga-refers to the expression : phagace tree whose leaves, in autumn, change from green to red and then to yellow; its wood is used in carpentry and furniture

### **lengs**

belonging to a variety or species oforange-

### **lenificativos**
